Those  
World Famous Dahlias

of E. L. KUNZMAN

*"As I look upon the Exquisite Beauty of  
my Dahlias,—those soul-inspiring, mind-  
entrancing Wonders of the Flower World,  
I feel that I have a faint glimpse of that  
Great Eternity which He has promised to  
those that love Him."*

Indiana Dahlia Farm

New Albany, Indiana

(Opposite Louisville, Ky.)

# Foreword.

---

Before reading this catalog, let us state, we want only satisfied customers, and if at any time you are not pleased, let us know; we will adjust the matter satisfactorily.

This little Catalog will present to you the names, and as near as possible in few words, the descriptions of the best Dahlias to be had anywhere. Lengthy, flowery descriptions take Space, and Space is Expensive in Catalogs today. We endeavor to save this Expense and give it to you in better values for your money.

This list of about 850 covers little more than  $\frac{1}{2}$  of the varieties we grow; our stock of the others is too limited to catalog, but could spare a few of any. Should you not find what you want listed here, write us.

We cannot guarantee the growth, but we guarantee healthy, vigorous tubers with at least one Eye, and that they shall be true to name; if otherwise, the Exchange will cost you nothing. Should any tubers fail to grow, these must be reported before July 15th of same Season, and will be replaced the following Season at one-half price.

If, on receipt of tubers, you are not ready to plant, cover them with soil or sand to protect from drying air.

Tubers will be sent postpaid, at prices herein, on orders amounting to \$2.00 or more; less than that amount 10c extra for postage and packing; 25% of purchase price may be sent with order and balance paid C. O. D.

If choice of Varieties is left with us, will send at least 20% additional value, and varieties which would probably be better than you could choose, unless acquainted with the different Sorts.

In the following list "S." after the name of variety stands for Ball or Show variety, shaped like a ball and more or less quilled; "C." for Cactus type; "Cent." stands for Century; "P." for Peony-flowered; "D." for Decorative; "Coll." for Collarette; "Pom." for Pompon, the miniature Dahlia. A combination of letters such as "P-C." stands for a combination of the two types, or Hybrids.

E. L. KUNZMAN.

NOTE—Send us orders from your friends and we will reward you liberally with extra Tubers.

# Indiana Dahlia Farm

**Money Back Guarantee**—Any stock not proving satisfactory can be returned at once and money will be refunded.

Many varieties are running low in Stock and would advise ordering at once; can hold roots till May 10th if wanted. Varieties marked Net are without any discount whatever.

If you grow Flowers or bulbs for Sale, send Card or letterhead for Trade Discount.

## Announcement

---

Below are a few of our Wonderful New Seedlings for 1925. No stock delivered until after April 15th, 1925. They have never been entered in competition, but those who have seen them say they are unbeatable. Following is a brief description of each:

GOLDEN GIANT, P., immense, and a beauty in shape and color, which is pure, rich Old Gold.

GOLDEN VEIL, Hyb-C. or P.-C., large luminous light Yellow or Sulfur; different in type from any existing variety and exceedingly prolific.

HALO, Hyb-D., large, massive, but perfect shape and the exact shade of Break O'Day.

HEART'S DESIRE, P-D., large, very beautiful Salmon Rose.

KALLIKRATES, P., more brilliant in coloring than Geisha; the base of each petal is rich Yellow, the upper half bright Red. Extra prolific and large.

OH BOY!—Giant clear Yellow when opening, changing to rich Old Gold when mature; of a type indescribable. The bloom is very large and full; has waved and crinkled petals, and the robust plants have the appearance of a tree loaded with mammoth Golden Fruits.

SQUARE DEAL, Hyb-D., large, extra long stem and exceedingly free making it a Goldmine for Cutflower Growers. Color, soft Flesh, tinted Salmon Pink.

SUN GLOW, Dec., large, on stems as strong as canes; brilliant, clear Red, and flowers last more than a week when cut or on bush.

THE ARISTOCRAT, D., soft light Rose Pink, shaded Dove; very large, free and attractive.

And other Good Ones, to be announced in our 1925 Catalogue.

---

While we never exhibit in Competition the unsolicited testimonials, of which we have hundreds, speak for themselves.

---

We are situated so centrally that we can save you much money in Express charges, Parcel Post, etc., and our roots are ideal.

# THE FLOWER GROWER

For all who grow flowers

ESTABLISHED 1914

MADISON COOPER, Editor & Publisher, CALCIUM, N.Y.

Subscription Price  
Three years \$3.50  
One year \$1.50  
Single copy 20¢

**T**HE FLOWER GROWER, as its name implies, is filled with facts and information on growing flowers. Departments are devoted to the Rose, the Peony, the Iris, the Gladiolus, the Dahlia, and other flowers. It has a Bird department, a Wayside Ramblings department, the Glad Philosopher's Musings, Mrs. Austin's Talks, Sturtevant's Odds and Ends, and EDITORIALS on interesting subjects not always strictly floral.

The chief purpose of **THE FLOWER GROWER** is to present facts and ideas helpful to better and more beautiful living conditions and a better outlook on life. Chiefly floral in its scope and treatment, editorials and articles are printed on current subjects of vital interest to those who are desirous of bettering their relationship with their surroundings; and students of the Great Out-of-Doors will find **THE FLOWER GROWER** filling a heretofore unfilled niche in their reading.

Your reading of twelve issues of **THE FLOWER GROWER** will convince you that you cannot afford to be without it, and I will surely have you as a permanent reader.

To send your subscription: Write your name and address below and attach remittance in stamps, currency, check, draft or money order, and mail to **MADISON COOPER, Editor and Publisher, Calcium, N.Y.**

When planting, follow directions on inside back cover of our Catalog.

## INDIANA DAHLIA FARM

New Albany, Indiana

# CULTURE OF THE DAHLIA

At the INDIANA DAHLIA FARM

NEW ALBANY, IND.

---

**N**O firm or grower can guarantee the growth of any plant, but if the following rules are observed, anyone may have success with Dahlias.

Select the sunniest spot obtainable. Unless the soil is very poor add no fertilizer; if very poor, some good dairy or other manure (well rotted preferred) should be broadcasted; spade or plow deeply and pulverize soil thoroly as early as soil can be worked well.

About May 1st to June 15th, plant your tubers horizontally, about 4 inches deep and about 18 inches apart in rows 3½ feet apart. Keep top soil constantly loose (about 2 inches deep), which will conserve moisture and destroy grass and weeds. Never water the plants until in bloom, unless during genuine drouth, then soak them about every eight days, and re-stir top-soil the day following.

Should you wish to form bushy plants, cut back about one-half of growth when plants are 12 to 15 inches high; this will make them branch and become stocky.

If you have quite a number of plants, drive a heavy stake in each row about every 12 plants and fasten a wire (telephone size preferable) the length of the rows to the stakes, about 18 inches above the soil; your plants will grow up into the wire which will stiffen them; also, should necessity arise, you can tie your plants to this wire.

When buds appear, apply Phosphate Fertilizer or liquid manure to your plants (about one pound Phosphate to 20 plants), and stir into soil, repeat again in 3 weeks.

Should mildew threaten, spray with Bordeaux Mixture.

Several days after killing frost, dig your roots, remove the tops and what earth comes off easily, let cure 2 or 3 hours in air, and then store away, stem downward if possible, in any ordinary cellar, or in sand or soil in a basement as far from the furnace heat as possible.

Examine occasionally during Winter. In the Spring, divide the clumps so as to leave at least one eye or sprout to each division, and plant at time above stated.

Should any tubers received from us fail to grow, report them not later than July 15th and we will replace them next Season for one-half regular price.

Wishing you success,  
E. L. KUNZMAN.

**Have You Ordered**

## **King of Commerce Dahlia?**

We believe this to be the forerunner of a new, superior race of Dahlias, owing to its exceptionally perfect growth, stem, color and habits in general.

Size: 5 to 6 inches, on 18 to 36 inch stem, without disbudding.

Color: Tango with Golden suffusion, most appropriate to Autumn.

Habit: Medium height, branching, robust and healthy always; free.

This Dahlia received the Certificate of Merit from the American Dahlia Society.

Only \$1.00 each.

---

**—FREE—**

We will donate, as long as we have them, a quantity of Tubers to any worthy persons or organization unable to buy them (who will furnish reference as to their worthiness) for growing flowers to decorate their church or meeting place.

---

## **Other Combinations, of Extra Values**
